Hello Eric,

It has come to our attention that the store location for Time to Electrify Inc. is not an eligible brick and mortar location as it is a home.

As you are aware, one of the eligibility criteria for funding pursuant to ECCC's Energy Savings Rebate Program requires that an applicant's organizations have an eligible brick and mortar presence in at least one single or upper tier municipality in Ontario. Since Time to Electrify Inc. does not meet this criterion, we regret to inform you that ECCC is not authorized to consider your proposal for point of sale rebates at Time to Electrify Inc. This means that we cannot continue working towards the completion of a funding agreement with Time to Electrify Inc.

We appreciated your participation in this process. Should you have any additional questions, please contact the Programs Directorate at ec.re-esr.ec@canada.ca.

Regards,
Katherine
