Eric Carrière
Time to Electrify Inc.
1354 Gaultois
Ottawa, ON
K1C 3G6

Dear Eric Carrière:

We are pleased to inform you of federal approval-in-principle of funding for point of sale rebates at Time to Electrify Inc. in Ontario, under the Energy Savings Rebate Program of the Low Carbon Economy Fund. This approval is given following a successful review of your proposal under the terms and conditions of the Energy Savings Rebate Program as part of the Low Carbon Economy Fund. Federal funding of this project will be up to \$200,000 of the total eligible project costs.

The Funding Agreement, when signed, represents the final step in the federal approval of the point of sale rebates, and will outline in detail the conditions under which federal funding will be provided. Eligible costs, as determined under the terms and conditions of the Energy Savings Rebate Program, can only be incurred and reimbursed as of the date when the last party signs the Agreement. The Agreement is not subject to negotiation and has to be signed by all parties within thirty (30) business days of the date of receiving the Agreement. In the meantime, any public announcements with respect to Canada's funding towards the project should not be made without prior consultation and approval by Canada.

Thank you for your collaboration to date. We look forward to continuing to work together to conclude a Funding Agreement for this project.

Sincerely,

Serge Bijimine
